

docutils with Zotero

Shamelessly stolen from the pandoc example: <http://johnmacfarlane.net/pandoc/demo/CITATIONS>

- Reference [1] says blah.
- Reference [1] says blah.
- Reference [1] with suffix says blah.
- Reference [1] [CSL STYLE ERROR: reference with no printed form.], [2], see also [3] says blah.
- In a note.¹
- A citation group see [1], also [3].
- Another one see [1].
- And another one in a note.²
- Citation with a suffix and locator [1] and nowhere else.
- Citation with suffix only [1] and nowhere else.
- Now some modifiers.³
- With some markup see [1] p. **32**.

1

A citation without locators [3].

2

Some citations [1], see [2], [3].

3

Like a citation without author: [1], and now Doe with a locator [2].
